

Alberta Newsprint Integrates Mainsaver to Corporate ERP System

San Diego, CA – March 27, 2018: Mainsaver Software announced today that it has been contracted by Alberta Newsprint Company to provide a complete integration solution of their current Mainsaver implementation with the company NetSuite ERP system. Located in Whitecourt, Alberta, ANC is a leading manufacturer of newsprint for North America, and currently utilizes Mainsaver extensively for Corrective and Preventive Maintenance, as well as Inventory Management.

With the expanded Mainsaver solution, ANC and Mainsaver will integrate inventory and purchasing transactions between Mainsaver and NetSuite. Interface material transactions will include part creation, issuing and receipts. Procurement transaction will include purchase requisitions and orders, vendor creation and GL account codes. The interface will greatly enhance efficiency as well as financial accuracy of the operation by eliminating double entry of these type transactions in 2 separate systems.
